Case of the Month: February 2008

Fever of unknown origin and Down syndrome

Tutor: Cristiana Nascimento-Carvalho, Brazil

Statistics:

37 viewed the discussion forum

19 participated in the discussion

From 2003 up to end of 2007 ESPID Case Rounds took place in WorkMates platform.

On WorkMates some special arrangements were made for these rounds. The purpose was to make it easier to log in but it made very difficult to evaluate the rate of participation. However, on each case approximately 8-12 members of ESPID participated in the each discussion. The rate of viewing is not available.

October 2007

Pulmonary infiltrate in an immunocompromised child.

Tutor from Scheider Children Hospital, Israel

May 2007

Fever and convulsions.

Tutor Shai Ashkenazi, Schneider Children Hospital, Israel
